

STATUS YOUR WAY

We're all familiar with the usual status for orders, A for Active, D for Deleted, C for Completed etc.

But did you know in the new MAP5 Version you can set some of your own?

You can set up Order Status letter assignments to provide improved analysis and better tracking.

Some of our requests so far include:

L for lost quotation

P for Proforma Order

S for Sample Order

T for in transit

Each of the user defined Status is set a standard equivalent and when a Status is amended, prompts can be set to request additional information.

The screenshot shows the 'Status' window in MAP5. It features a ribbon menu with 'Datafile', 'Home', 'Tools', 'Edit', and 'Links'. The 'Home' ribbon includes various utility icons like 'Ledger Enquiry', 'Contacts', 'Calculator', 'Price Checker', 'Databases', 'Reports', 'About Company', 'Pause System', 'Change Printer', 'Stock Availability', 'Spooled Reports', 'Post Messages', and 'Collect Messages'. Below the ribbon is a table with the following data:

Order-Ref	Customer	Order Status	Order Value	Invoiced Value	Ord-Date	Comment
000577	BAL002	A	5152.98	0.00	28/02/16	

At the bottom of the window, a legend defines the status letters:

Status	A-active	C-complete	D-deleted	H-hold	Q-quote	F-forward
User defined	L-Lost	R-To Pick	T-Transit			

The bottom status bar shows 'F8-Zoom', 'F9-Memo', and 'Comp NDM'.

If you'd like to know more, see a demonstration of the feature or even MAP5, please do not hesitate to contact myself or a member of the team.
